Invest in Eastern Macedonia and Thrace

Eastern Macedonia and Thrace is a region of opportunity at the crossroads of Europe, the Balkans, and the East. With modern infrastructure, international airports and ports, and strong road connections, our region is a natural gateway for business and trade.

We are rapidly developing into an energy hub for Southeast Europe, while supporting renewable energy, innovation, agri-food, tourism, and manufacturing. Our fertile land, rich natural and cultural heritage, and growing tourism sector offer strong investment potential.

Through national and European programs, we provide financial incentives, subsidies, and business support to investors who choose to grow with us.

In the attached files you will find:

1. a brief profile of the Region of Eastern Macedonia and Thrace,
2. the recent OECD report on our Region.

I invite you to invest in a region that is moving forward — with stability, vision, and a strong future.

Christodoulos Topsidis

Regional Governor of
Eastern Macedonia and Thrace
